“including, but not limited to, access to gas capacity or transportation under APS’ contract with El Paso Natural gas company. For purposes of clarifying our position that, in the interest of a fair, open and transparent solicitation process, affiliate preferences will not be permitted in any regard. We will require that, with respect to access to the gas capacity formerly held solely by APS, to the extent that an APS affiliate will bid in the competitive solicitation process using such gas capacity, APS must make such capacity available, on the same terms as the capacity is available to its affiliate.”
